Technical Skills

Javascript, Typescript, Python, HTML, CSS, NodeJs, React, NextJs, Express, Firebase, Git, GitHub, AWS, CloudFormation, GraphQL, REST, Jest, PHP, TailwindCSS, MongoDB, PostgreSQL.

Projects

[Netflixo | \(NodeJs, Express, MongoDB, React, TailwindCss, Firebase\)](#)

Apr 2022 – Oct 2022

A movie web app, where end users can stream movies, download movies, rate and comment on their favorite movies.

- Designed the overall structure of the application using React and TailwindCSS, with Redux-Toolkit for managing the state of the application.
- Implemented Login and Registration features using JWT Authentication with NodeJs back-end and Express server.
- Set up database storage with Firebase back-end using Firestore as well as MongoDB database.
- Implemented Rating feature to enable users interact with the platform programmatically.

[Nexender | \(React, NextJs, Pusher, TypeScript, TailwindCss, MongoDB, Prisma\)](#)

Nov 2022 – Jun 2023

A fully-responsive real-time chat app for group chats and one-on-one messaging.

- Harnessed the power of Next 13, using App router for efficient routing and dynamic page rendering.
- Incorporated Next Auth to manage user authentication and protect sensitive data.
- Implemented social logins using popular platforms such as Google and Github for easy and convenient login and sign up.
- Implemented real-time messaging and notifications using Pusher, creating a truly immersive and interactive experience for users.
- Set up cloud storage using Cloudinary for image uploads.

Education

Federal University of Technology, Owerri

Bachelor of Engineering in Polymer Engineering

Nov 2014 – Dec 2019

Owerri, Imo State, Nigeria

Interests

Reading, Football, Board games, Video Games, Music.
